

On behalf of the Hillview Trust Board and Management I would like to thank all you wonderful people who have supported us with our development project, PROJECT HILLVIEW.

The following is our 1st update on the progress to date:-

PROJECT HILLVIEW involves the building of

- **A replacement nurses accommodation** - Edith McIndoe House – This is now completed and occupied
- **2 dedicated Respite Rooms** – These rooms are well underway and look to be completed by the end of the month (May).
- **6 x 2 bedroom independent living rental units for the elderly** - The site and foundation works are complete and erection of the framing will commence any day.
- **Continued upgrading of our existing facility.**

The initial costing of our project was \$3.4M however, with current increases of building supplies, this figure is now closer to \$4M. Through wonderful support from you all we have raised \$3.5M and are now on the fundraising home strait, with \$500,000 left to raise to meet our target.

Respite Rooms

Edith McIndoe House

Unit foundations

Unit site dig out

Pouring of concrete - Units

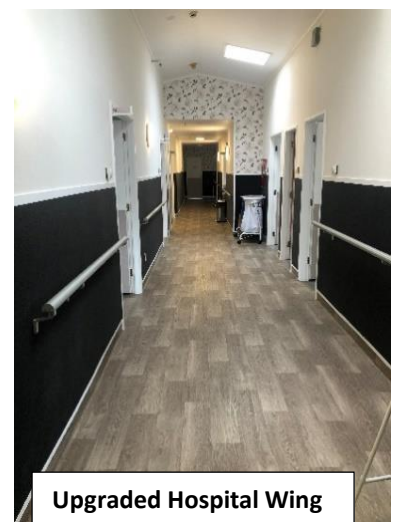

Upgraded Hospital room

Upgraded Hospital room

New outdoor furniture

Upgraded Hospital Wing
